D77-87	Telecom New Zealand Ltd	Telecommunication and Radio-communication and Ancillary Purposes
D88-95+98	Rangitikei District Council	Cemetery, Refuse, Sewage, and Water Supply Purposes
D101-129		

The height of every building, structure, mast, trees or other object shall be so restricted that every point thereof shall not penetrate any of the climb, transitional or horizontal surfaces associated with Ohakea Airfield

These surfaces as shown on this

1. A wedge shape inclined plane rising at a gradient of 1 in 50 from their origin at the end of the airfield.
2. A transitional surface on either side of the climb surface sloped at a gradient of 1 in 7.
3. A horizontal surface being the circular plane extending 4000 metres from the airfield at an altitude of 45 metres above A.R.P. (Alt 89.620m A.M.S.L.) and the circular plane extending out 6000 metres at an altitude of 115 metres above A.R.P. (Alt 159.620m A.M.S.L.)

NOTE
Aerodrome reference point (A.R.P.) level 44.620m A.M.S.L.
Coordinates 703731.1m, 291371.87m
